

AUTOMOBILE INSURANCE

Every auto owner needs insurance. It's just as much of a necessity as gas or oil. Why? Because every time you take your car out you run a risk of having an accident that might cost you a large sum.

There is only one company doing business in Michigan which can give you the MOST insurance for the LEAST money; it's also the oldest and largest Mutual Auto Insurance Co. in the state. It's the "Citizens Mutual" of Howell, Mich.—19,000 members in the state.

We cover fire and theft in all sums between \$25.00 and the cash value of the car at the date of loss, but not exceeding \$1,000; and liability (injury to other people and damage to other people's property) in all sums between \$25.00 and \$5,000.00.

Our rate is so cheap you can't afford to be without protection; 25c per H. P. and \$1.00 policy fee.

ORDINANCE NO. 70.

An ordinance to regulate and control the sale of milk and milk products within the Village of Paw Paw and to provide for the inspection of dairy herds, dairies, and other places where milk and milk products are produced or sold.

The Village of Paw Paw ordains: SECTION 1. No person shall sell or offer for sale within the Village of Paw Paw any but clean raw milk from herds tuberculin tested, the tuberculin to be furnished by the State of Michigan.

SECTION 2. In all cases the reasonable expense of making the tests for tuberculosis shall be paid by the owner of the herd.

SECTION 3. Any person violating any of the provisions of this Ordinance shall be punished by a fine not exceeding \$50 or by imprisonment in the County Jail not exceeding thirty days or by both such fine and imprisonment in the discretion of the court. Every day that a violation of this Ordinance continues shall be treated as a separate offense.

This Ordinance shall take effect December 1st, 1917.

The above Ordinance was adopted at a regular meeting of the Village Council, Monday evening, October 8th, 1917 by an unanimous ye and nay vote.

LIBERTY ENRICHING THE WORLD.

ON ASKING THE FARMER TO BUY A BOND.

Too many farmers, last summer neglected to buy Liberty bonds. We are willing to be charitable and believe they neglected this duty through procrastination, or lack of funds, or for some other reason more or less unavoidable.

At any rate, the fact remains that they didn't subscribe to the first Liberty Loan, and since then, no doubt, their conscience hasn't been resting well at night. Now they have an opportunity to ease that troubled conscience. There's a second Liberty Loan now, offering a better investment than even the first one offered, and the advice of this publication to farmers everywhere is this:

If you failed to invest in the first loan, go straight to your banker, without a moment's delay, and invest in loan number two. Plunge into it up to your eyebrows, for you've got to atone, remember, for what you failed to do last May and June.

If you did invest in the first loan, then hold on to your interim certificates and later exchange them for the second issue bonds, which will pay a higher rate of interest. No charge will be made for this exchange, and Secretary of the Treasury McAdoo will presently name the date upon which the exchange may be made.

But don't hesitate to buy a bond of this second issue simply because you bought one or more of the first. You cannot own too many of these bonds. They're the safest investment on earth, and one of the most profitable. So long as the United States government endures, they cannot depreciate in value.

Then, too, of course, there is a higher reason why every farmer should have a Liberty bond in his home. Even though they paid no interest whatever, they should be in every farmhouse in America. The ownership of a Liberty bond is sufficient proof that the farmer has emerged triumphantly from an acid test of his patriotism. Liberty bond owners need never protest that they are true-blue Americans. Their bonds prove they are.

EVERY WOMAN SHOULD BUY A BOND

By EDWARD BOK,
Editor, Ladies' Home Journal.

Every woman who can should buy one of the new Bonds because

First: It is the best investment on the face of the earth today. There could be no better.

Second: As every cent of the money raised by these Bonds is spent in this country, a woman helps to keep business going, and that means her income.

Third: The buying of a Bond makes every woman do her part in winning the war, for war cannot be conducted without money. The Government must have money, and the amount she loans to it helps to keep our boys in France fed and clothed. A woman when she buys one of these Bonds is a real patriot of her country, as well as a careful investor of her money.

These bonds must sell, for if they do not, the necessary money must be raised by such heavy taxation as to cripple every industry in the land, and the poor would not be able to provide themselves with the bare necessities of life. Everything would go into taxation. Hence, come these Bonds as true saviors of the poor.

PRIVILEGE TO SUPPORT LOAN

By CALEB H. CANBY.
Former President, Chicago Board of Trade.

The United States is engaged in a righteous war, a war upon the result of which depends not only the future of free representative governments in all parts of the world, but the future peace and prosperity of all peoples.

Every man, woman and child, from the Atlantic to the Pacific, should fully appreciate, and I believe does appreciate, the fact, that it is a duty of the highest order, and a privilege greater than any other, to support the second installment of the Liberty Loan, which will help to bring the war to a successful and early conclusion.

There will be presented to us October 1st the opportunity to perform this vital service for our country. This service calls for practically no personal sacrifice other than the investment of our surplus funds in a security of the highest order based upon practically all the vast resources of the United States.

No subject is of greater importance to each of us personally, and from the standpoint of self-interest as well as patriotism we should one and all give this loan our hearty support, with the thought constantly in our minds that upon us in this essential matter depends to a large degree not only our future peace and happiness, but the peace, happiness and prosperity of our children and our children's children.

WHY WE DID IT.

By ELLIS PARKER BUTLER,
Humorous Writer.

In our little town of Flushing, on Long Island, with less than 20,000 inhabitants, we took subscriptions for the first Liberty Loan issue to a total of \$1,044,000, or an amount equal to one \$50 bond for every man, woman, youth and baby in the town. This amount was subscribed through the three local banks. Most of our citizens do business in New York and many are connected with financial institutions there or subscribed in New York before our campaign was started. Flushing probably took \$2,000,000 of the first issue. Although several long-term payment plans were in operation, the bulk of these bonds have been paid for now. Flushing will buy more than her share of the new issue. Why?

Those who bought bonds bought them for two reasons—patriotism and investment. A great many who bought from patriotic motives have discovered that it is easier than they ever imagined to save money. They were glad to help Uncle Sam; now they are glad to own bonds. In Flushing, those who bought Liberty Bonds will buy more because they have found it the easiest way to save money; those who did not buy before will buy now, because they have neighbors who tell them they were foolish to miss the first chance.

The seventh federal reserve district, which comprises parts of Illinois, Indiana, Michigan and Wisconsin and all of Iowa, is shooting at a \$700,000,000 target in this campaign. Only the united efforts of all the people, rich and poor, high and low, great and small, will enable the district to "ring the bell."

And remember, while pondering your answer to that question, that a Liberty bond pays 4 per cent interest and is as good as minted gold.

PROBATE COURT PROCEEDINGS

Estates of:—
Samuel E. Monroe, dec'd. No claims filed. Estate closed to creditors.

Adam Beach, dec'd. Order appointing Administratrix. Bond issued.

Alvis Keen, dec'd. Final Account of Executor filed. Hearing November 12th.

Cyrus J. Klapp, dec'd. Final Account of Administratrix filed. Hearing November 12th.

Josephine Burdick, dec'd. Bond filed and Letters testamentary issued to Georgia Sherwood. Order appointing Appraisers and hearing on claims Claim day, February 18th.

Andrew W. Baker, dec'd. Bond filed. Letters testamentary issued to Dennis J. Baker. Order appointing Appraisers and hearing on claims. Claim day, February 18th.

Our Illiterates.

In various ways there were gathered into this country at the time of the last census 5,500,000 illiterates. Were these segregated they would make a nation larger than Switzerland or as large as Denmark and Norway combined.

It would be a nation without Bibles, without songbooks, without magazines or newspapers, without banks, without railroads, without pens, pencils or writing paper and one supplied with only the coarsest commodities of trade. I heard an illiterate woman say that she couldn't recognize a two dollar bill until she was twenty-five years of age. "Square money," with its printing, is not as popular with them as "round money."—Exchange.

Pluto's Safety Valve.

A round, smooth hole in the side of a granite monument about nine miles out from Mexico City is locally known by a term which signifies "Pluto's safety valve." The hole is about nine inches in diameter at the opening, which is polished in a manner which suggests human workmanship. That man had nothing to do with drilling or polishing this hole will be readily surmised when it is known that it has occasionally emitted hot air and smoke during a period extending over 300 years.
